

SCREENLIFTER 108

DESIGNSTAND

UNLOAD, SET UP,
AND LIFT YOUR LARGE
FLAT-PANEL DISPLAY WITH THE
PUSH OF A BUTTON.

- DESIGNSTAND FOR 108" FLAT-PANEL DISPLAYS, INTEGRATED CONTROL, INTEGRATED POWERCORD
- AUTOMATIC UNLOAD SYSTEM, TOOL-FREE SETUP BY ONLY ONE PERSON IN A FEW MINUTES
- STEPLESS ELECTRIC HEIGHT ADJUSTMENT
- SECURE TRANSPORT SYSTEM, INTEGRATED SHOCK ABSORBING SYSTEM

Using the ScreenLifter, the handling and setup of the newest generation of 108" large displays becomes a mere child's play. At the touch of a button the up to 500 lb heavy display unloads itself from the flight case. Thanks to the precise heavy-duty lifting mechanism, the ScreenLifter allows stepless adjustment of the display height.

The ScreenLifter with its integrated shock absorbing system combines a secure and convenient storage and transport system with a stylish designstand that allows the tool-free setup of the display by just one person. The display is permanently attached to the ScreenLifter, which significantly reduces the risk of damage during handling and saves precious time and cost of labor.

Dimensions display (WxHxD): 2572x1550x802mm (101,30"x61"x31,6")
 Max. height lower edge of displayed image: approx. 1600mm (63")
 Max. height overall: approx. 3073mm (121")
 Weight of display: approx. 195 kg (430lb)
 Weight of ScreenLifter: approx. 205 kg (452lb) without display
 Color (standard): aluminum anodized EV1, RAL9011

Size flightcase (WxHxD): 2720x2107x894mm (106,9"x82,95"x34,96")
 Weight flightcase: approx. 250 kg (485lb)
 colors: black, grey, blue, options on request

No compromises were made in the development of the ScreenLifter to meet the targets of perfect function and premium design. Its elegant and unobtrusive design makes the ScreenLifter the perfect match for the exquisite Sharp TFT LB-1085 display.

The flight case fits through a standard door frame, which makes it possible to set up the ScreenLifter in virtually any location. Setup and operation of the ScreenLifter are entirely tool-free and made simple by the control unit's pre-programmed memory positions. The control panel features a LED display that shows the height of the bottom edge of the displayed image.

A wired remote control is available as an optional accessory.
