

MediaScreen WTO65

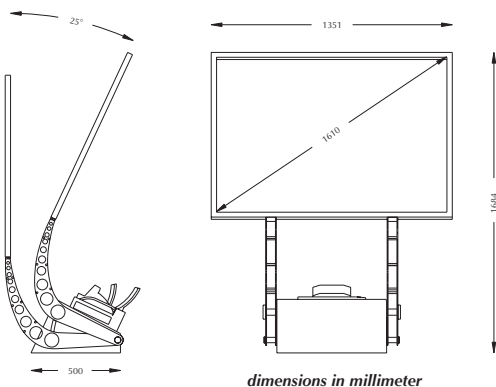

Super-flat, variable rearprojection system for conference-rooms, POI/POS, applications and interactive presentations.

The MediaScreen WTO65 is an innovative and filigree rearprojection system with 160 cm (65") screen diagonal and a minimum depth of 55 cm (22"). The system is suitable as POI & POS shop window display as also as presentation system for fairs, events and conference rooms. The mechanically coupled screen-projector configuration allows the simple, continuous adjustment of the vertical viewing angle up to 25°.

A further innovation is the unlimited mobility and flexibility of the compact presentation system. The MediaScreen WTO65 suits without any assembly work trouble-free through every timber set. So you can turn every location within a couple of minutes into a conference- and training class room. The system unites brilliant image quality, simple use and elegant design for a multimedia piece of art.

- **screen diagonal:** 165 cm (65")
- **dimension:** (h x w x d) 170 x 135 x 55 cm (tilted)
- **weight:** appr.: 45 kg
- **projector:** 1 chip-DLP, XGA, appr.: 2500 Ansi-lumens
- **material:** aluminium
- **formats:** video & dataplayback in 4:3 image ratio
- **optionally:** heightening pedestal incl. wheels for the placement of video or PC sources. Additional height appr. 10"
