

I-frame

Contact-free interface for innovative and lastingly working navigation by brands, products and experience worlds on fairs, events and for multimedia installations on POS and POI.

Finished 3D- software modules are available, which can adapted fast and inexpensive to the respective Corporate Design and contents of the customer presentation.

The infrared frame system is available as standard framework, like also as an individually configured interface for multimedia installations at the point of sale (POS) and point of interest (POI).

Features:

- Intuitive interaction at POS and POI
- Interactive navigation through 3D-experience worlds
- Lastingly working multimedia learning
- Simple data link to Windows Systems
- Standing or floating assembly
- communication-promoting system architecture by the rotating display

Dimensions:

width 140 cm
height 100 cm
(other dimensions on request)
